Dear Chairmen and Board Members:

After reviewing reports, information, conducting a site visit, and discussing our August 18, 2015 meeting, the Commission offers the following recommendations and observations:

- There is evidence of a buried fuel oil tank on the property of the proposed project. The Environmental Commission recommends that the tank be removed and disposed of in accordance with all applicable laws and regulations.

Other than the tank in question, there were no other environmental concerns. Thank you for the opportunity to provide these recommendations and observations and please call with any questions.

Sincerely,

Anthony Russo
Chairman
